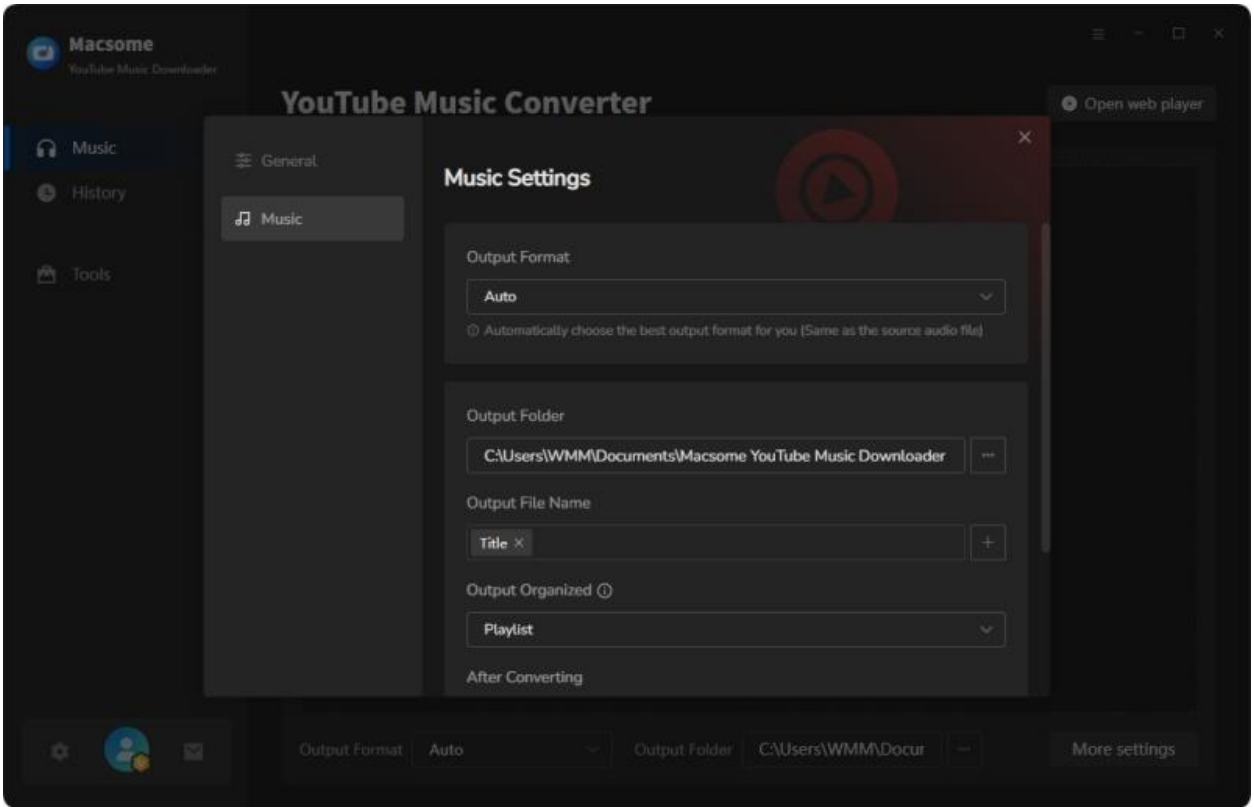
Customize Output Settings

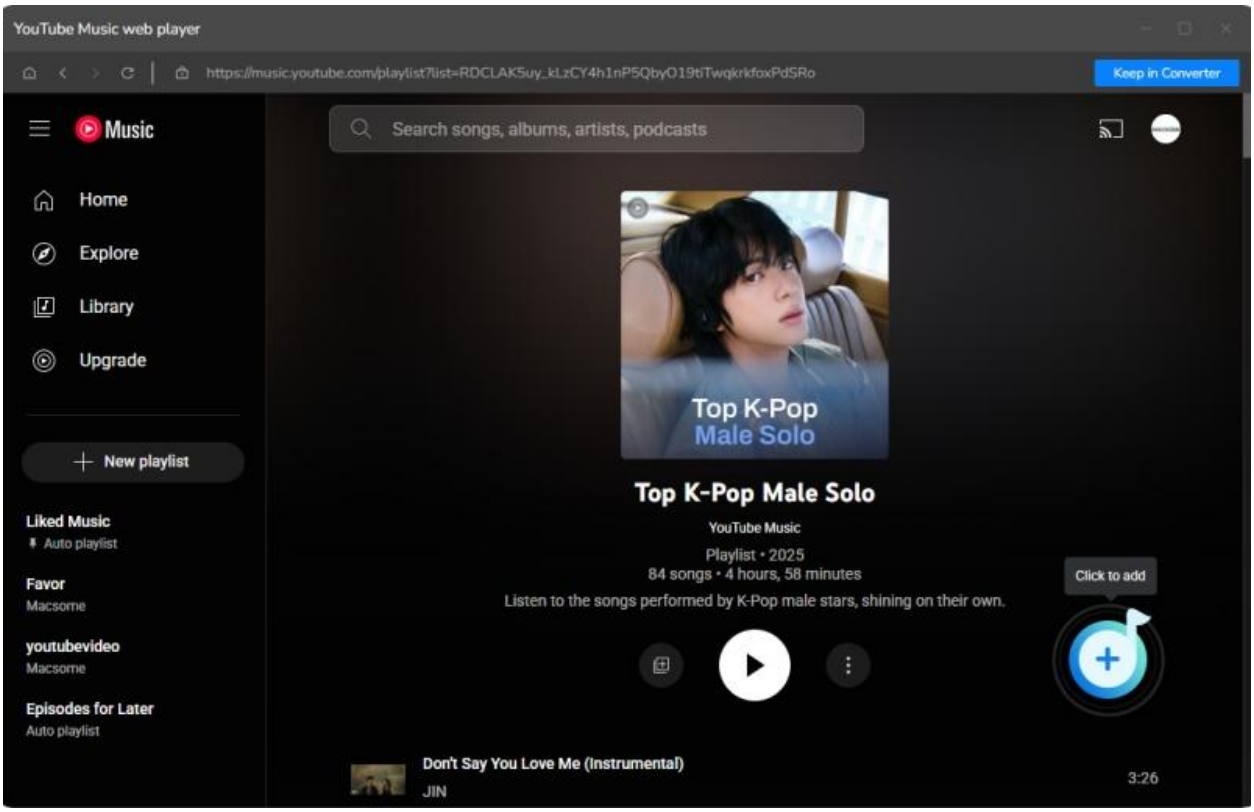
In the main window, choose the Output Format (AUTO/MP3/AAC/FLAC/WAV/AIFF/ALAC) and Output Folder. In More Settings, for better organizing your music library, you can save the output audio files into an organized folder like Playlist, Artist, Album, Artist/Album, or Album/Artist.

If you want to get the best output quality, we suggest you choose **Auto** as the output format.



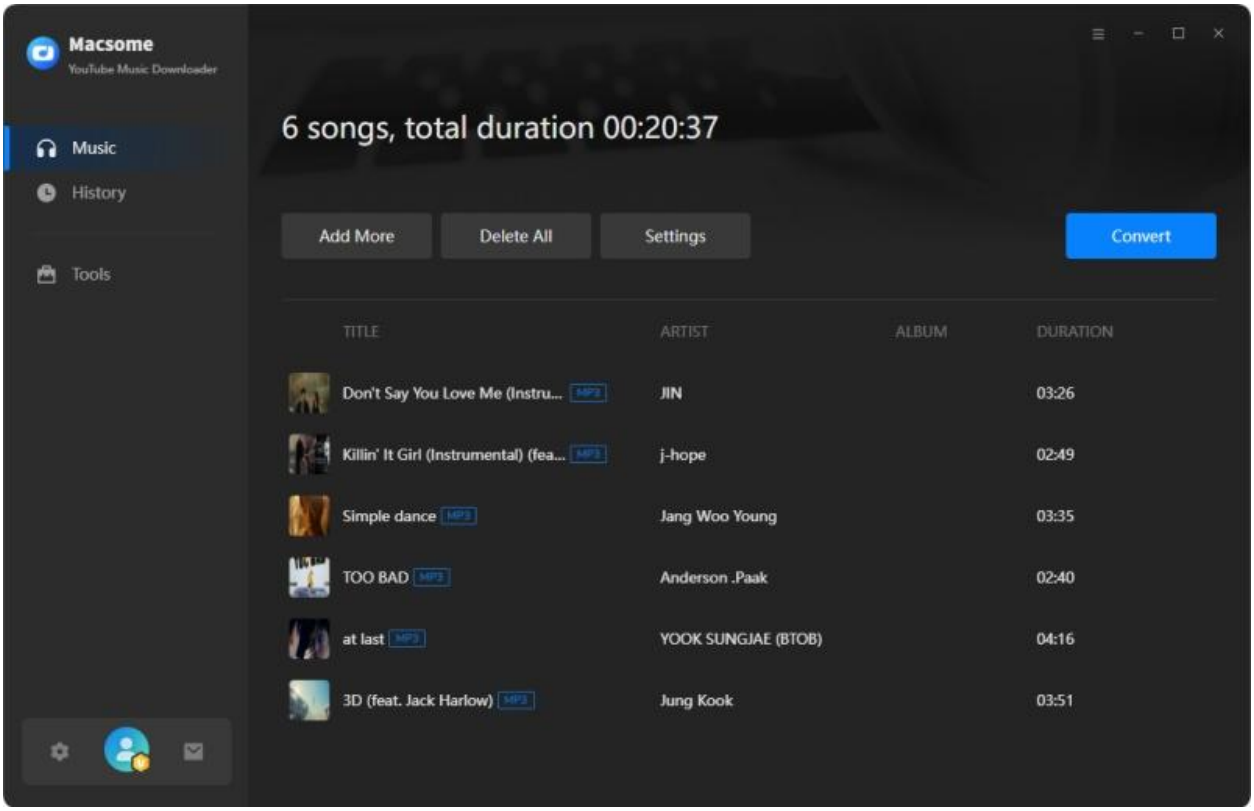
Import Music Files

Open a track, album or playlist, then you can click the **"Click to add"** button to add the music you want to convert.



Then Macsome will parse the playlist to the popup window

Then, click the **"Add"** button, all the songs will be listed on the main window. You can click the **"Add More"** button to continue choosing songs from other playlists or albums.



Tips to Download YouTube Music videos: If YouTube Music includes the Music video, please switch on the **"Also download the music video (If provided)"** option, and then the YouTube Music tracks as well as the music videos will be downloaded together.
